Welcome to Dojo, a kick-ass dungeon crawler powered by the RED engine! -- Download it now! - Rant "Dojo is probably the best experience on the platform for a while, and there's a reason for that. It is a dungeon crawler that ditches the ball and chain of tutorials and has a full story-driven campaign that is certainly worth your time as a fan of Red. " GamesRadar "Combat feels a little broken but Dojo is so very rewarding if you can stick with it. Some control issues aside, it's a charming, witty, and just plain fun dungeon crawler." JayIsGames "Dojo is a fun game and exactly what a full-fledged, JRPG dungeon crawler should be, and it's a great experience for those who enjoy that genre or just dungeon-crawlers in general."
