A denúncia foi protocolada no Supremo Tribunal Federal (STF) pela Procuradoria-Geral da República. Cunha é acusado de ter recebido, em 2012, propina de R\$ 5 milhões, enquanto era presidente da Câmara. As investigações apontam que o dinheiro, que teria sido enviado pelo grupo J&F (Júlio Marcelo Camargo Filho, ex-presidente da J&F e amigo de Eduardo Cunha), teria sido repassado pelo vice-presidente da empresa, o ex-deputado cassado José de Filippi (PP-PB). O peemedebista teria recebido o dinheiro do grupo J&F em espécie e a partir daí o repasse teria sido feito pessoalmente. O deputado responde ao processo porque a Procuradoria-Geral da República, ao

What's New in the?

No longer required to write over existing text. Now, text input can be automatically added to the text position in new drawings. (video: 1:44 min.) Saving and sharing to cloud services. The Application Settings dialog will automatically save your design settings to your OneDrive, and Share and Export to OneDrive will export your drawings to OneDrive. (video: 1:44 min.) The ability to open and create objects directly in AutoCAD with the new object-selection/selection tools. These features were previously only available in the web app, but now also include the ability to create new objects. (video: 1:52 min.) Multiple property stacks in both the Property Sheets and the Layouts/Artboard Pane. Now, drawings and artboards can be easily split and merged with the new property stacks. (video: 1:36 min.) Click and drag in all drawing views. You can now use a “click and drag” to zoom in and out of a drawing while it is selected in any view. Artboards can be used for freely moveable layouts of drawings. You can now quickly and easily add, move, and resize multiple artboards in a drawing at once. (video: 2:09 min.) 2D surfaces can now be created in a variety of materials. The drawing view will display the new material and color for 2D surfaces. A new, more precise and compact symbol font. The new font provides more options and is more compact, easier to read, and provides better scaling in 2D and 3D views. Improved editing of labels and annotations. Annotations are easier to edit and the label tool is now more intuitive. Design features for the creative process Notation: Change the size, color, and rotation of text, shapes, and line types. Apply text settings to a group of objects, rather than individual objects. Capture thoughts visually. Use the Drawing Toolbox to create a sticky note, scratch paper, or freeform sketch. Then, edit, move, and resize the annotation. Present ideas visually. Create a drawing of your sketch using the Layouts/Artboard Pane and shape the page layout as you capture your ideas. 3D files and exports: Simplify the management of 3D objects. You can now interact with imported
